

The Used - Blue And Yellow

tom:
 Drop **D** tuning:
 play this for the verse and into the pre-chorus with "you're
 never
 gonna find it if you're looking for it won't come your way.."

play this and it smoothly flows into the chorus like so:

This is the entire song and the chorus is distorted while the
 verses
 are played clean. The break after the chorus is played a
 second
 time is a bass line with heavy drums and distortion. But
 that's
 what I've got. Enjoy!
