

# The Vamps - Half Way There

Tom: **G**

We're somewhere **E** between being friends and something else I **B** really  
 Wanna be **A**  
 You spent a whole year wondering if I see you in the same way **B**  
 you **A**  
 See me **A**

I'll admit for a moment, I apologise I guess I just lost my **E**  
 Head **A**  
 She said, why stop now **Dbm** **A**

When you're half way **E** there-ere-ere-e-yeah **A**

When you're half way **A** there-ere-ere-e-yeah

And I know, I know you're scared, to care **Dbm** **A**

But you're half way there (woah, woah, woah, woah) **A**

Drive down to NYC just you and me a second I can have some **B** **A**  
 dreams

But dreams are harder to hold onto when you know that you **B**  
 don't **A**

Have to meet **A**

**Dbm** **B**

From time to time, you know in life, when you blow a tire and **E**  
 You've got no spare **A**

But she said, we can't stop now **Dbm** **A**

When we're half way **E** there-ere-ere-e-yeah **A**

When we're half way **A** there-ere-ere-e-yeah

And I know, I know you're scared, to care **Dbm** **A**

But we're half way there (woah, woah, woah, woah) **A**

**E**  
 Take your time

The way is long and all the roads are open wide **B**

Praying every time that you don't **Dbm** change your mind

Keep on moving forward one mile at a time (woah, woah, woah, **A**  
 woah)

Cause we're half way **E** there-ere-ere-e-yeah **A**

When we're half way **A** there-ere-ere-e-yeah

And I know, I know you're scared, to care **Dbm** **A**

But we're half way there (woah, woah, woah, woah) **A** **B**

**E**  
 We're something between being friends and something else I **B**  
 really wanna be **A**

**E** **B**  
 You spent a whole year wondering if I see you in the same way **A**  
 you see me (woah, woah, woah, woah)
