

# The Vamps - My Place

Tom: **G**

Should I stay, another day?

Inside my head, an empty space

Tried every way to clear my brain

It's an attitude I can't escape

**Gbm**  
'Cause for a while it goes when I breathe in  
**A** Stays for a minute disappears when you touch my skin, oh  
**B**  
I don't wanna go

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

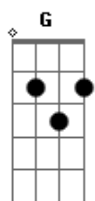

**E**  
Coffee stains, on my pillowcase  
**A** And the way you smile, when the neighbors complain  
**E** Why'd you play your cards close to your chest?  
**E** Wasting time when we could waste our breath  
**A** Speaking 'bout how we'd change the world from my bedroom

**Gbm**  
'Cause for a while it comes when I breathe in  
**A** Stays for a minute disappears when you touch my skin, oh  
**A**  
Baby say you're home

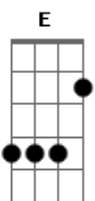

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

Rollercoasters, baby take a ride

Looking for another a chance to change your mind

We don't have to go too far tonight

Just back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

But baby where we headed now?

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place

Let's go back to my place

Look at that face, I don't ever wanna let you down

Let's love by mistakes and heartbreaks

I never wanna see you frown

It's not so far away, who cares if they say?

We were stuck in a little town

I can tell by the look, that's written on your face

Let's go back to my place
