2ª parte:

G D G C  
If you want words to put your mind at rest tonight,  
G  
Come and shout about it.  
G D G C  
We can talk for a hundred miles and drive  
G  
Where you're less surrounded.

G D G C  
Cause I can see that the candle you hold inside  
G  
Has a cloud around it.  
G D G C  
How can a heart like yours be that high and dry  
G  
When it burns the brightest.

Am C  
I'm so sorry I can't stop myself from staring at you,  
Em Bm  
When you're tired and blue, my dear  
Am C Am  
It's just any reason I get to be closer to you,  
D G  
I wanna shout about it,  
Am D G  
Oh, I wanna shout about it

G D G C  
Beneath the window and the water that's in your eyes  
G  
That's where I know you're hiding.  
G D G C  
There's a smile that could light up a thousand lives  
G  
And you need reminding.

G D G C  
Tell me your fears, don't let 'em live a life alone  
G  
Let me share the burden.

G D G C  
Cause here beside you there's a man you better know know  
G  
Who you can confide in.

Am C  
I'm so sorry I can't stop myself from staring at you,  
Em Bm  
When you're tired and blue, my dear  
Am C Am  
It's just any reason I get to be closer to you,  
D G  
I wanna shout about it,  
Am D G  
Oh, I wanna shout about it

Am C  
I'm not saying, all I do  
Bm Am  
Will make everything you touch turn gold  
Am C  
I'm just waiting to pull you through  
Bm Am  
I'll take a little off the load  
Am C  
Yeah, any reason I get to be closer to you  
(Introdução 1x)
