

The Warning - Eternal Love

Intro: C F C F G

Tom:

You were busy Keeping me blind
 Not able to see Your petty lies
 But now that I'm out Of your darkness
 I know who you are!

Out of my reach And looking around I felt so lucky Because I
 had you

Have you ever felt Like you found love
 And then realize that It was false!

Oh! I can't believe I fell For all of your lies
 I flew in straight Into your trap

Your gift to me Was nothing but a Broken dream
 When I thought We had eternal love
 We had eternal love
 We had eternal love
 We had eternal love
 We had

Oh! I can't believe I fell For all of your lies
 I flew in straight Into your trap

Your gift to me Was nothing but a Broken dream
 When I thought We had eternal love

Now looking at you It's devastating
 Cause I know the truth About your selfish heart

How am I supposed To move on
 If I'm Still in love
