

The Warning - Exterminated

```
Tom: G
Intro:
Verso:
                                                               But instead now I just wonder
Everything is gray
                                                               When will I have my revenge?
   Eb
All around me is decayed
                                                               Refrão:
Darkness invades me again
The blood is boiling in my veins
                                                               Another war is beginning
         Eb
                                                                     Eb
Anger is showing through my face
                                                               More blood is spilling
Clouding up my mind
This destruction brings me pain
                                                               Another storm is growing
There is no other way
                                                                Eb
                                                               More wind is blowing
I need to have my revenge
                                                               A hurricane that won't go away
Refrão:
                                                               Till it's all exterminated
Another war is beginning
      Eb
                                                               Solo:
More blood is spilling
Another soul is been taken away
                                                               Refrão:
Another storm is growing
More wind is blowing
                                                               Another war is beginning
                                                                      Eb
A hurricane that won't go away
                                                               More blood is spilling
Till it's all exterminated
Verso:
                                                               Another storm is growing
There is no escape
      Eb
                                                               More wind is blowing
From the visions in my head
                                                               A hurricane that won't go away
It feels like I've been in hell
                                                               Till it's all exterminated
I won't rest until is over
         Eb
Must put an end to this disorder
                                                               Till it's all exterminated
Acordes
```
