```
We both knew we can't go without it
Intro: G F Am
                                                                           Am
                                                               She told me you'll never be in love oh oh oooh
And I know she'll be the death of me, at least we'll both be
                                                                I can't feel my face when I'm with you, but I love it, but I
                                                                love it
And she'll always get the best of me, the worst is yet to come
                                                                I can't feel my face when I'm with you, but I love it, but I
But at least we'll both be beautiful and stay forever young
                                                                love it
This I know, (yeah) this I know
                                                                I can't feel my face when I'm with you, but I love it, but I
She told me, "Don't worry about it"
                                                               I can't feel my face when I'm with you, but I love it, but I
              Am
She told me, "Don't worry no more"
                                                               G F Am

                                                                              Am

I can't feel my face when I'm with you, but I love it, but I
                                                               We both knew we can't go without it

                                                                I can't feel my face when I'm with you, but I love it, but I
All the misery was necessary when we're deep in love
This I know, yes I know, and I know
