

## The Weeknd - Attention

```
Tom: G
  [Verse]
Baby, you were so strong
Baby, you were calm, you were so calm, yeah
Tell me where it went wrong
Tell me how to love, it's been so long
                   G
When a call's not enough, and you just need to touch
              G
Thinking twice on my one
But you just need to trust
[Refrão]
You're only looking for attention
You only notice it cause I'm never abrupt
                Am G D
You're only looking for attention, oh, oh
                      G
You're only looking for attention
The only problem is you'll never get enough
                         Am G
You're only looking for attention, oh, oh
[Verse]
What do you expect now?
Only thing left is the sex now
Cause baby, too vexed now
Only see me on the TV or the bed now
              G
     Am
When it touched my mouth
```
