The Weeknd - In The Night

Tom: C

```
    Am
All alone she was living
        G
In a world without an end or beginning
    Em
Babygirl was living life for the feeling
          F
But I don't mind, I don't mind
Am
And all the wrongs she committed
          G
She was numb and she was so co-dependent
          Em
She was young and all she had was the city
          F
But I don't mind, I don't mind
```

Pre-Chorus:
```
      Dm                            Em
And I know that she's capable of anything, it's riveting
      Dm                    G
But when you wake up she's always gone, gone, gone
```

Hook:
```
Am
In the night she hears him calling
G                          Em
In the night she's dancing to relieve the pain
                   F
She'll never walk away (I don't think you understand)
Am
In the night when she comes crawling
G                          Em
Dollar bills and tears keep falling down her face
                   F
She'll never walk away (I don't think you understand)
```

Verse 2:
```
Am
He sang a song when he did it
                    G
He was cold and he was so unforgiving
                      Em
Now she dances to the song on the minute
                         F
Yeah, all the time, all the time
Am
It make her weak when she hear it
G
And it got her on her knees like religion
Em
She was young and she was forced to be a woman
                         F
Yeah, all the time, all the time
```
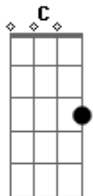

Pre-Chorus:
```
        Dm                            Em
And I know that she's capable of anything, it's riveting
      Dm                    G
But when you wake up she's always gone, gone, gone
```
Hook 2x:
```
Am
In the night she hears him calling
G                          Em
In the night she's dancing to relieve the pain
                   F
She'll never walk away (I don't think you understand)
Am
In the night when she comes crawling
G                          Em
Dollar bills and tears keep falling down her face
                   F
She'll never walk away (I don't think you understand)
```
I don't think you understand...
