

The White Buffalo - Black And Blue

```
Tom: C
Pack up your shit, we're through
          F7M
Prepare for black and blue
She slams the door, out into the night she flew
Maybe you'll shut the fuck up
Well, it's late and that's quite enough
             F7M
                   С
But I scan the streets, and I scream off the balcony for you
                             C
Love
              F7M
              F7M
Drown myself, it's just as well
             F7M
Throw my body in the wishing well
             F7M
Fallin' apart, spellbound, scheming for you
```

F7M Courage makes me want you more F7M C I'm fixin' my mind but I'm fuckin' it up For you, for you Am it's all for you F7M It's all for you F7M It's all for you (Am) F7M Pack up your shit, we're through Prepare for black and blue F7M She slams the door, out into the night she flew Love, love, love (C F7M C)

I'll crawl to the corner store
