

The White Stripes - It's True That We Love One Another

Tom: **G**

The chords are on the offbeat mainly

CHORUS:

Am
Well it's true that we love one another,
I love Jack White like a little brother **D**
Well Holly, I love you too
Am
But there's just so much I don't know about you

VERSE 1:

Am
Jack, give me some money to pay my bills
All the dough I give you, Holly, you've been using on pain pills
D
Jack, will you call me if you're able
Am
fill
I've got your phone number written in the back of my bible
E **D**
Jack, I think you're pulling my leg
Am
And I think maybe I'd better ask Meg
Meg, do you think Jack really loves me?
fill
You know, I don't care because Jack really bugs me
E **D**

Why don't you ask him now?
Am
Well I would, but Meg I really just don't know how
Just say 'Jack , do you adore me?'
fill
Well I would Holly but love really bores me
Em **D**
Then I guess we should just be friends
Am
I'm just kidding Holly, You know that I'll love you 'til the end

CHORUS

VERSE 2:

Am
Holly give me some of your English lovin' **fill**
If I did that Jack I'd have one in the oven **D**
Why don't you go off and love yourself
Am
If I did that Holly there won't be anything left for anybody else
Jack it's too bad about the way that you look
You know I gave that horse a carrot **fill**
So he'd break your foot **E** **D**
Will the two of you cut it out **Am**
And tell 'em what it's really all about

CHORUS

Acordes
