Verse 2: Chords are the same like verse 1

you're laying down again  
then you look me over

we're laying down again  
on a blanket in the clover  
The same boy you've always known  
well i guess i havn't grown  
The same boy you've always known

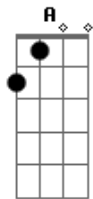

kind of a bridge :

**E**  
think of what the past did it could've lasted  
**A**  
so put it in your basket  
**E**  
hope you know a strong man who can lend you a hand  
**A**  
lowering my casket

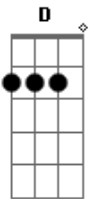

Verse 3:same as verse 1

I thought this is just a day  
and soon you'd be returning  
the coldest blue ocean water  
cannot stop my heart and mind  
from burning  
everyone who's in the knows says  
that's exactly how it goes  
and if there's anything good about me  
i'm the only one who knows
