

The Who - Doctor, Doctor

Tom: **B**

{intro}
:::**Abm** : : :
{bass}

:**Abm** : : :
Doctor, there's something wrong with me
: : :**Eb** :
My health is not all that it used to be
:**E** : : :**Gb** :
My heart is out of beat, I've got chilblains on my feet
:**Eb** : : :**E** : :**Gb** : :**Abm** :
: : :
My eyesight's getting dimmer, I can't see

Doctor thanks for seeing me today, I'm glad,
I've got every sickness there is to be had
I had whooping cough last month
And today I've got the mumps
And tomorrow I'll get chicken pox as well

:**Ab** : : :**Db** :
Doctor, doctor, doctor, make me well
:**Gb** : : :**B** :
I've not got long to go now I can tell
:**Ab** : : :**Db** z\\
Doctor, doctor, doctor, make me well

:**Gb** :**E** :**Gb** :**E**
I've not got long to go I can tell
:**Gb** :**E** :**Gb** :**E** **Gb:Abm** : : :
:
I've not got long to go I can tell

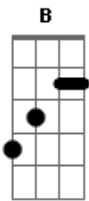

Those pills I took had no effect at all
Just the other day I had a nasty fall
And I think I broke my jaw, when it hit the kitchen floor
And I'm shrinking, last week I was five foot four

I've been getting shivers lately, is it flu?
And though the bug is going round, what can I do?
And it's about to pick on me, I've still got the other three
Do you think if I caught smallpox I'd get through?

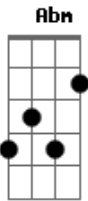

{Chorus}
Doctor, doctor, doctor, make me well
I've not got long to go I can tell
Doctor, doctor, doctor, make me well
I've not got long to go I can tell
I've not got long to go I can tell

Do you think it's time that I made out my will?
I'll leave everything to you to pay my bill
Just how long is there to go;
Please tell me, I want to know
But on second thoughts, don't tell me, I'm too ill
