

# The Wombats - Turn

Intro: F C Am G Tom:

I jump from thought to thought like a flea jumps to a light  
You could give an aspirin the headache of its life  
Maybe it's the crazy that I miss

Watering plastic plants in the hope that they will grow  
Seeing a message flash and then smashing up my phone  
Maybe it's the crazy that I miss

It won't get better than this

I like the way your brain works  
I like the way you try  
To run with the wolf pack when your legs are tired  
I like the way you turn me inside and out  
I like the way you turn

I like the way your brain works  
I like the way your brain works

I want to get college girl drunk tonight  
No morning fears  
No mountains to climb

They say the best memories are the ones that we forget  
Like

Listening to Drake at your best friends swimming pool  
Floating anti-clockwise in a red mushroom  
Maybe it's the crazy that I miss

It won't get better than this

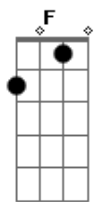

I like the way your brain works  
I like the way you try  
To run with the wolf pack when your legs are tired  
I like the way you turn me inside and out  
I like the way you turn

I like the way your brain works  
I like the way your brain works

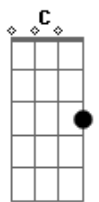

Baby it's the crazy I like  
I think I saw the world turn in your eyes  
Baby it's the crazy I like

Maybe it's the bullshit I miss  
Screaming at the moon in black lipstick  
Maybe it's the bullshit I miss  
It won't get better than this
