

## The XX - Heart Skipped a Beat

```
You weren't near
Intro: E Gb Abm Abm Gb E E Gb Abm Abm Gb E
                                                              Abm B
                                                                Near enough for me
E Gb Abm
 Please don't say we're done
                                                              E Abm B Abm
 When I'm not finished
Abm Gb E
                                                                Heart skipped a beat
 I could give so much more
E Gb Abm
                                                                          Abm
 Make you feel, like never before
                                                                And when I caught it you were out of reach
Abm Gb E
 Welcome, they said welcome to the floor
                                                                But I'm sure, I'm sure
                                                                You've heard it before
E Gb Abm
 It's been a while
 And you've found someone better
Abm Gb E
                                                                Heart skipped a beat
 But I've been waiting too long to give this up
                                                                          Ahm
  Gb Abm
                                                                And when I caught it you were out of reach
 The more I see, I understand
Abm Gb E
                                                                But I'm sure, I'm sure
 But sometimes, I still need you
                                                                                Abm
                                                                You've heard it before
 Sometimes, I still need you
                                                                Heart skipped a beat
 Sometimes, I still need you
                                                                          Ahm
                                                                And when I caught it you were out of reach
 Sometimes, I still need you
                                                                       В
                                                                But I'm sure, I'm sure
 Sometimes, I still need you
                                                                You've heard it before
Abm E Dbm E
E Gb Abm
                                                                Heart skipped a beat
 B Abm B
                                                                          Abm
                                                                And when I caught it you were out of reach
E B Abm B
                                                                But I'm sure, I'm sure
 And I was struggling to get in
                                                                You've heard it before
 Left waiting outside your door
 I was sure
                                                                Heart skipped a beat
Abm B
                                                                           Abm
 You'd give me more
                                                                And when I caught it you were out of reach
                                                                       В
                                                                But I'm sure, I'm sure
 No need to come to me
                                                                You've heard it before
 When I can make it all the way to you
                                                              Abm Gb E
```

## **Acordes**

You made it clear
