

The XX - On Hold

Tom: C

C
I don't blame you
Em
We got carried away
Am
I can't hold on
F
To an empty space

C
Now you've found a new star to orbit
Em
It could be love, I think you're too soon to call us old
F
When and where did we go cold?
C
I thought I had you on hold
Em
And every time I let you leave
Am
I always saw you coming back to me
F
When and where did we go cold?
C
I thought I had you on hold

C
Where does it stop, where does it stop, where do you dare me to?
Am
You've got the body, you've got the body, dare me to, dare me to
F
Where does it stop, where does it stop, where do you dare me to?
D
You've got the body, you've got the body, I thought I had you on hold

C
Where does it stop, where does it stop, where do you dare me to?
Am
You've got the body, you've got the body, dare me to, dare me to
F
Where does it stop, where does it stop, where do you dare me to?
D
You've got the body, you've got the body, dare me to, dare me to

C
My young heart chose to believe
G
We were destined
Am
Young hearts all need love
C
Call it a lesson

C
The stars and the charts and the cards make sense

G
Only when we want them to
Am
When I lie awake staring into space
C
I see a different view
C
Now you've found a new star to orbit
Em
It could be love, I think you're too soon to call us old
F
When and where did we go cold?
C
I thought I had you on hold

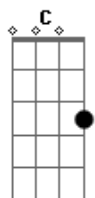

Em
And every time I let you leave
Am
I always saw you coming back to me
F
When and where did we go cold?
C
I thought I had you on hold
Em
I thought I had you on hold
Am
I thought I had you on hold
F
I thought I had you on hold

C
Where does it stop, where does it stop, where do you dare me to?
Am
You've got the body, you've got the body, dare me to, dare me to
F
Where does it stop, where does it stop, where do you dare me to?
D
You've got the body, you've got the body, you've got the body, you've got the body

C
Where does it stop, where does it stop, where do you dare me to?
Am
You've got the body, you've got the body, dare me to, dare me to
F
Where does it stop, where does it stop, where do you dare me to?
D
You've got the body, you've got the body, dare me to, dare me to

C
And every time I let you leave
Am
I always saw you coming back to me
F
When and where did we go cold?
C
I thought I had you on hold
Em
I thought I had you on hold
Am
I thought I had you on hold
F
I thought I had you on hold
