

Them Dirty Roses - Cocaine And Whiskey

```
But I gotta keep my chin up, keep my head held toward the sky
                              tom:
                 Bb (forma dos acordes no tom de G )
                                                                    'Cause the same way she had another man I had another girl on
Capostraste na 3ª casa
                                                                    the side
            [Primeira Parte]
                                                                    [Chorus]
Well two years ago, when I was just 20 years old
                                                                    So give me back my cocaine, give me back my whiskey
Well let me tell you what happened to me
                                                                    Forget about the time when you almost missed me
I had a girl who I truly loved
                                                                    Give me back my t-shirt, give me back my jeans
                                                                    I'll give you back your hand when you give me back my ring \ensuremath{\text{\textbf{G}}}
Yeah we were happy as we could be
We had a house, a picket fence
                                                                    So give me back my ring
We had a tire hangin' from a tree
                                                                    [Bridge]
Everything was just as good as gold
                                                                    Bring it back, bring it back to me baby
Until I caught the bitch cheatin' on me
                                                                    Bring it back, bring it back to me baby
[Chorus]
                                                                    Bring it back, bring it back, bring it back to me, aw yeah
So give me back my cocaine, give me back my whiskey
                                                                    Bring it back, bring it back to me baby
Forget about the time when you almost missed me
                                                                    Bring it back, bring it back to me baby
Give me back my t-shirt, give me back my jeans
                                                                                                                                 D
                                                                    Bring it back, bring it back, bring it back to me
I'll give you back your hand when you give me back my ring
                                                                    [Chorus]
So give me back my ring
( G F C D )
( G F C D )
                                                                    So give me back my cocaine, give me back my whiskey % \left( 1\right) =\left( 1\right) ^{2}
                                                                    Forget about the time when you almost missed me
[Verse 2]
                                                                    Give me back my t-shirt, give me back my jeans
Well that's what happened to me, I guess it happens all the
                                                                    I'll give you back your hand when you give me back my ring
                                                                   So give me back my ring
Every time I think about that dude in my bed, I start to \ensuremath{\text{cry}}
