

Théo Michels - About Last Night

Tom: **D**

Last night i woke up in my bed

But I couldn't see you anywhere

And eventhough you were by my side

It just didn't feel right

Last night i woke up in my bed

And all i saw was you standing there

Standing just by my side

And suddenly everything was alright

Ooooo the sky's

Falling down right now

But with you

I'll survive

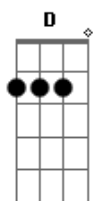

Ooooo the sky's

Falling down right now

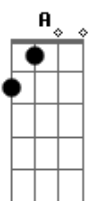

But with you

Yeah with you
