Theory Of A Deadman - Echoes

Tom: B

You were there, now you're gone
Big mistake, how do I move on?
E
Love was wasted and it's tainted now
But it's still there, fading in and out

B
We were so much better then
Catch yourself saying: Remember way back when?
E
Perfect were the days spent staying out
Heaven was ours to paint, you were so much fun

Gb   Abm   E
  So why is the world so cold?
Gb   Abm   E
  How did you get so cold?

B
 Say it once, say it twice
Over and over in my mind
E
 What went wrong with my life?
It echoes, echoes
It echoes in my mind

B
Say it once, say it twice
Over and over in my mind
E
What went wrong felt so right
It echoes, echoes
It echoes in my mind

B
 (It echoes, echoes)
B
 (It echoes, echoes)

B
When did it all go completely sideways?
Yeah, it's so easy in hindsight to say
E
But what if our past is our future's clue?
Cause I don't wanna live if I can't be with you
