

# Thiago Duque - Love Life

tom:  
Intro: A B7 E

I need someone that won't  
Knock me down when I am up

And will stand up close to me  
I need someone that will

Love me drunk and love me sober

Turn everywhere I have to be in  
Soft blues 'bout you  
Long nights, your perfume  
Wet hands, mistakes

Car crashes and earthquakes  
Anything and everything  
Will never be without you, boy

I know I might get home with empty hands  
And I am not the type that loves to win  
But love is something new here in my head  
So come and tell me when all this will end

I know I might get home with empty hands  
And I am not the type that loves to win  
But love is something new here in my head  
So come and tell me when all this will end

This war hits fast enough

To kill me with no pain

And drown with no water around  
I lock my feet down

So they don't run when I get scared

You're laughing cause I'm running now in

Old skools, strange suits  
New me and old you  
Space time, parties

You talk hard and taste so sweet  
Anything and everything  
Will never be without you, boy

I know I might get home with empty hands

And I am not the type that loves to win  
But love is something new here in my head  
So come and tell me when all this will end

I'm haunted by the blurry city lights  
They're cold and love to drink with me sometimes  
You got me writing songs all day all night  
Thinking about my on and off love life

(I have no love life)

( A B7 E )  
( A B7 E )  
( A B7 E )  
( A B7 E )
