

## Third Day - I Will Hold My Head High

Tom: C

Intro: C (8x)

Sometimes the night starts closing in  
And I've lost my way home again  
I'm running out of places I can turn  
Enemies on every side  
Not a friend around for miles  
That's the time it really starts to hurt  
Beat me up and drag me down  
I'll never be afraid

[CHORUS]

I will hold my head high  
Lift my hands to the sky  
Rise above all who try to bring me down  
I will hold my head high

I know you said it'd be okay  
Sometimes I question just the same  
I wonder if my problems are too small  
Then I look back and realize  
All your pain and sacrifice  
Oh and how you suffered for us all  
Beat me up and drag me down  
I'll never be afraid

Chorus

Solo

Beat me up and drag me down  
And lock me in or keep me out  
Whatever they may throw at me  
I'll turn into a song for you

Chorus(2x)

## Acordes
