

Third Eye Blind - Losing a Whole Year

Tom: **E**

Intro:

Chorus:

A **E** **B**

Losing a whole year

Losing a whole year

A

I remember you and me used to spend

E **B**

The whole goddamned day in bed

Losing a whole year

A

Hiding in your room we'd lay like dogs

E **B**

And the phone would ring like a joke left unsaid

Losing a whole year

Verse:

A

Rich daddy left you with a parachute

E

Your voice is sounds like money and your face is cute

B

But your daddy left you with no love

And you touch everything with a velvet glove and

A

Now you want to try a life of sin

E

You want to be down with the down and in

B

Always copping my truths

I kind of get the feeling like I'm being used

A

And now I realize you never heard

E **B**

One goddamned word I ever said

A **E** **B**

Losing a whole year

Losing a whole year

Verse:

A

Took your stuff and put it in the basement

E

When I found out what the smile on your face meant

B

I've seen you pop that check

Craning your neck at the car wreck, and

A

It always seems the juice used to flow

E

In the car, in the kitchen, you were good to go

B

Now we're stuck with the tube

A sink full of dishes and some aqua lube

A

I remember you and me used to spend

E **B**

The whole goddamned day in bed

Bridge:

4x

Verse:

A

And if it's not the defense, then you're on the attack

E

When you start talking, I hear the Prozac

B

Convinced you've found your place

With the pierced queer teens in cyberspace

A

When you were yourself it tasted sweet

E

But it sours into a routine deceit

B

Well this drama is bore

And doesn't want to play no more

A **E**

Hey Hey

B

Hey Hey

Losing a whole year

A

I remember you and me used to spend

E **B**

The whole goddamned day in bed

Bridge:

8x
