tom:

Intro: D D7M G  
D D7M G

D G  
So now we're right back where we started  
D G  
You don't know me anymore  
D G  
It'll be two years come December  
D G  
Hope you found what you lost me for

D G  
Now the big, big leaves are falling  
D G  
From that old tree out in the yard  
D G  
I mean the one I carved your name in  
D G  
But that was back when it was ours

Bm G  
Now I watch you revolve around me  
Bm G  
Like a distant flashing light  
Bm G  
Gone around the world come back again and find me  
Bm A G  
Three hundred sixty, my satellite  
D G  
My satellite  
D G  
My Satellite

D G  
I've heard you live down by the water  
D G  
And that you found another man  
D G  
And he don't sing the same as I do  
D G  
But he can't hurt you like I can

Bm G  
Now you're drifting slowly from me

Bm G  
Far away almost out of sight  
Bm G  
Gone around the world come back again and find me  
Bm A G  
Three-hundred-sixty, my satellite  
Bm A G D G  
Three-hundred-sixty, my satellite, my satellite

Now and then you'll pass before me

Gone behind the world come back around and blind me
