

Thrice - Beyond The Pines

Tom: **G**
Intro: **G7M**

G7M
Somewhere down the way

There's a hidden place that anyone
That all of us could find

But our maps have failed

So venture through the veil and realize
That these roads are intertwined
Far beyond those walls

Gleaming black and white
Further than our false schemes

Of wrong and right
Is a field where we can walk
Leaving all our names behind
I will meet you there, beyond the pines
Templed in twilight or dawn
The light and easy air
Tracing the lines on our palms

(**Bm A G7M Bm A G7M Bm A**)

G7M
Somewhere down the road is a place
That we can go where everyone
And everything is divine

And when we're all awake
We can finally make and end of these
Divisions in our minds
