

## **Tiffany Hudson - The Wonderful Blood**

```
How something so divine
               tom:
                                                               Could be so simple
Intro: Am G Em D C
                                                               [Refrão]
[Primeira Parte]
                                                               The blood, the blood, the blood
The precious fountain
                                                               Oh the wonderful blood
From Calvary's mountain
Em D C
Flowing down to you and I
                                                               Your love, Your love, Your love
                                                               Oh the marvelous love
It washes us clean
                                                                           Em
                                                               Let the redeemed sing a song
    G
Oh what a mystery
                                                                           G
                                                               Praises belong to the Son
   Em D
That red blood makes me white
                                                               The blood, the blood, the blood
[Pré-Refrão]
                                                               Oh the wonderful blood
                                                               [Interlude] C G G Am C G G Am
Isn?t it wild
Doesn?t it make you wonder
                                                               [Ponte]
How something so profound
Could be so simple
                                                               The work You did is finished
[Refrão]
                                                               All of our sins forgiven
                                                               And now we get to live in
The blood, the blood, the blood
                                                               The wonder of the working blood
Oh the wonderful blood
                                                               The cross was Your decision
Your love, Your love, Your love
                                                               But death was not the ending
Oh the marvelous love
          Em
                                                               You rose and now we?re risen
Let the redeemed sing a song
                                                               Oh, the wonder of the working blood
Praises belong to the Son
                                                               The work You did is finished
      D
The blood, the blood, the blood
                                                               All of our sins forgiven
Oh the wonderful blood
                                                               And now we get to live in
[Segunda Parte]
                                                               The wonder of the working blood
My precious Jesus
                                                               The cross was Your decision
Oh I'm so thankful
                                                               But death was not the ending
      Em D
For the day You saved my life
                                                               You rose and now we?re risen
As I remember
                                                               Oh, the wonder of the working blood
                                                               [Ponte 2]
My heart grows tender
      Em D
Tears begin to fill my eyes
                                                               Oh, the wonder of the working blood
[Pre-Chorus]
                                                               Oh, the wonder of the working blood
And isn?t it wild
                                                               Oh, the wonder of the working blood (the blood, oh)
And doesn?t it make you wonder
                                                               [Half chorus]
How something so profound
                                                               The blood, the blood, the blood
Could be so simple
                                                               Oh the wonderful blood
And isn?t it wild
                                                               Your love, Your love, Your love
And doesn?t it make you wonder
                                                              Oh the marvelous love (your blood)
