

Tigirlily Gold - Forever From Here

tom:

D
[Primeira Parte]

D
When the days get short and the fields turn gold
John Deeres are hummin' 'til the nights get cold **G**
And you're keepin' me warm
D
When the geese fly south in a red sunset
First fall night, you can see your breath **G**
And I'm safe in your arms

[Pré-Refrão]

A **Bm**
And then God turns on the stars
A **Em**
And our dreams don't seem so far

[Refrão]

G
I can see a house with the shutters blue
A couple little kids that look like you
D
Kiss me right now, don't need no reason

Baby, this love's in harvest season
G
What do ya say? Let's give it a go

Build a little life with room to grow
Bm **G**
With the sky this clear

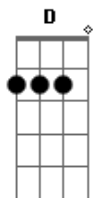

D
I can see forever from her?
D2
Ooh, yeah

[Segunda Parte]

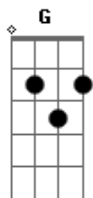

D
Take me on a walk down that old dirt road
T?ll me I'm pretty as a prairie rose **G**

Yeah, it sounds so sweet
D
It's you and me for a thousand miles
G
Put down some roots, let them go wild
Em
