Left a good job in the city,
Workin for the man every night and day
                                                                   Cleaned a lot of plates in Memphis,
And I never lost one minute of sleepin'
                                                                   pumped a lot of pain down in New Orleans.
Worryin' 'bout the way things might have been
                                                                   But I never saw the good side of the city,
                                                                   till I hitched a ride on a river boat queen.
