

T.Mills - Go For It All

Tom: Eb

(com acordes na forma de Capotraste na 1ª casa

I dont wanna be okay, I just need to hear you say

When nothing really goes your way, tomorrow is a brand new day

Let me help you ease your mind, Imma make you realize

That tonights your night

Uh

I just want you to fly like a first class ticket on a mission through the sky

Never listen to the lies, keep me racing to the moon

I just be slighter than the whispers in the room

And them critics just assume you will never get do

All the things you really love, such a pessimistic view

Well let me tell you like mama told me

Everything comes back, its never always gon be

So mama never home, and papa never sober

You gotta keep climbin, the top is never closer

The truth is like a fight thatll take you to the white

And tomorrow gets brighter is you make it through the night, right?

You got it, they can never take it

They just gonna hate it cus they could never make it

Better days are coming in this thing called life

When rain go away a rainbow will say

Its alright

I dont wanna be okay, I just need to hear you say

Its alright

When nothing really goes your way, tomorrow is a brand new day

Its alright

Let me help you ease your mind, Imma make you realize

That tonights your night

So baby lets go for it all

Why? You can find a smile

We done made it to the sky, we aint never comin down

Remember all the nights you was wishin on a star

I told you if you fight itll get you from them all

See? You just gotta say

And I will bring you blue skies Ill make all your fake friends go away

All they do is throw shade

Its time to get the sunshine back and watch all these gray clouds blow away

Okay you got it, they could never stop it

They just gonna hate it cuz they could never top it

And even if you block it theres gotta be a way out

If our work pay off theres gotta be a pay out

Stay on start of bizzoc, stack your own brizzocks

Into a building when you was feeling light

Giving up you never did

So I just came to let you know that if you never hit

Its alright

I dont wanna be okay, I just need to hear you say

Its alright

When nothing really goes your way, tomorrow is a brand new day

Its alright

Let me help you ease your mind, Imma make you realize

That tonights your night

So baby lets go for it all

Keep your eyes to the skies

And baby, well go for it all

Dont ask why, thats just right

So baby, lets go for it all

I dont wanna be okay, I just need to hear you say

Its alright

When nothing really goes your way, tomorrow is a brand new day

Its alright

Let me help you ease your mind, Imma make you realize

That tonights your night

So baby lets go for it all
