

# Tobmac - See The Light

tom:  
Capo: 2ª casa  
Intro: G Bm E D C

I know this road is getting hard  
I heard you say it's overwhelming  
I said I'd never be too far  
And I meant that from the heart  
I see the mountain getting high  
I see it stacking up against you  
I always said you were a fighter  
But you've got your doubts tonight  
Well I'm here to remind you

It don't matter where you come from  
I know we can get through this  
It might feel like it's been so long  
But we keep on keeping on

It might feel like an uphill climb  
Always some kind of battle  
Always some kind of battle

But you've got more than you on your side  
And we gon' see the light

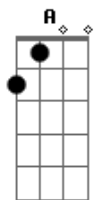

We gon' see the light  
We gon' see the light  
You and me, you and me  
We gon' see the light

Some things will never be the same  
Some things are only for a season  
And just the thought of letting go  
Well, it's brought you to your knees

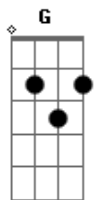

Oh, but if you can make it  
You can make it through the night  
I can promise that the sun is gonna rise  
You wake up just a little bit stronger  
So, hold on just a little bit longer

So, go on and lift your hands up  
To where your help is coming from  
And let your burdens, let 'em fade away
