

Tokio Hotel - Louder Than Love

tom:
 Just trust yourself tonight
 For once in your life

I see it like a color up
 Against a darkest sky
 Lightin' up the map to our escape
 I can hear your damaged heart
 Screamin' through your eyes
 Hush the pain away

Nothing's louder than looo-ove
 So whisper your heart
 Don't be scared of the dark
 Nothing's louder than looo-ove (oh)

So whisper your heart
 Don't be scared of the dark
 (Louder than - louder than - louder)
 (Oh woah - oh woah - oh woah)

(Louder than - louder than - louder)

Exploding sounds of loneliness
 Echo through the night
 Raise your hands
 And cover up your ears
 And if you have the courage now
 Leave them by your side
 For once in your life

Nothing's louder than looo-ove
 So whisper your heart
 Don't be scared of the dark
 Nothing's louder than looo-ove (oh)

(Oh woah - oh woah - oh woah - oh woah)
 (Louder than - louder than - louder)

Just trust yourself tonight
 For once in your life
