

# Tony Ferrari - You've Got a Hold On Me

Tom: Eb

Well, you've got a hold on me Eb

It's something like glue Bb Cm

And now every word you speak

I swear that it's my only truth Ab

And you've got a hold on me Eb

I could scream it to the skies Bb Cm

And i'm hiding away

Seeing you won't see

That I shake whenever you come by Ab

There must be something in the way Eb

That you love me Bb Cm

That makes me feel Ab

Like come at home

And I could be up in a plane Eb

Going all around the world Bb Cm

See a million faces, talk to every pretty girl Ab

But they could never see the way Eb

You fill up every space in my heart Bb Cm Ab

Yeah, you've got a hold on me Eb

( Eb Bb Cm Ab )

Yeah, you've got a hold on me Eb

I hope I've got one on you Bb Cm

And this world may not be easy

But with love we'll always make it through Ab

And you've got a hold on me Eb

That can make a grown man weak Bb Cm

And shaking his knees, causing nausea Ab

The reason for that singing sings

There must be something in the way Eb

That you love me Bb Cm

That makes me feel Ab

Like come at home

And I could be up in a plane Eb

Going all around the world Bb Cm

See a million faces, talk to every pretty girl Ab

But they could never see the way Eb

You fill up every space Bb Cm

In every inch of this soul that I sing from Ab

And when I had no words Eb

Not a parcel of truth Bb Cm

No, I was just a body to bleed from Ab

I felt my ways, that I was born into Eb

The second that you came and gave me love Cm Ab

That must be something in the way Eb

That you love me Bb Cm

That makes me feel Ab

Like come at home

And I could be up in a plane Eb

Going all around the world Bb Cm

See a million faces, talk to every pretty girl Ab

But they could never see the way Eb

You fill up every space Bb

In my heart, my heart Cm Ab Cm Ab

Yeah, you've got a hold on me Eb Bb

Yeah, you've got a hold on me Cm Ab

Yeah, you've got a hold on me Eb Bb

Yeah, you've got a hold on me Cm Ab

Yeah, you've got a hold on me Eb Bb Eb
