

Tove Lo - Not Made For This World

Tom: C

C
Em
So you fought off a thousand gangsters, ready for the war
Em
And you hang with the stones round the world on tour
C
Em
Then you bought me a million diamonds, but lost them by the shore
Em
As if I did believe you all look in the water

C
I'm the wide eyed loving monster who feeds your every lie
Em
'Cause I need to pretend it's you and I
C
And I know my head is twisted but it keeps me sane at times
Em
But I know I can keep you in my mind

F7M
Dream till I'm dead then set me on fire
Am
Flames and the smoke keep taking me higher
F7M
Love and pretend will soon be expired
Am
We would be not made for this world
G
Not made for this world

C
So I tell you a little secret, who knew that I could fly?
Em
I'm the queen of the world and the trees up high
C
And if you wanna come with me you just say the word
Em
I'll be waving my wand then we both turn into birds

C
You're the wide eyed loving monster who feeds my every lie

Em
'Cause I need to pretend it's you and I

F7M
Dream till I'm dead then set me on fire
Am
Flames and the smoke keep taking me higher
F7M
Love and pretend will soon be expired
Am
We would be not made for this world
Em
Not made for this world

We got a happy place
Em
Where nobody else can go
