## Tove Lo - WTF Love Is

Tom: G Fm I got fire eyes, glitter in my tear lines And I'm coming down, ready for some new sounds Fm And I'm holding up all that I can think of But, where are you? Where are you? Fm D Oh, lonely babe, stranded on the dance floor Look for me, I know that I'm a handful D But you get me, know what you signed up for Live up to the best and the worst of your dreams All the cards with all the love cliches I wouldn't have it any other way Shake your head, you don't believe this Then what the fuck do you think love is? All the cards with all the love cliches I wouldn't have it any other way Shake your head, you don't believe this Then what the fuck do you think love is?
