                                                                If it's love
                                                                       Em
                                                                And we decide that it's forever
Afinação: Eb Ab Db Gb Bb Eb
                                                                No one else could do it better
 While everybody else is getting out of bed I'm usually
getting in it
                                                                If it's love
I'm not in it to win it and there's a thousand ways you can
                                                                And we're two birds of a feather
                                                                Then the rest is just whatever
 My feet have been on the floor flat like an idle singer
                                                                And if I'm addicted to loving you
Remember winger I digress I con-fess you are the best thing in
                                                               And you're addicted to my love too
my life
                                                                We can be them two birds of a feather
But I'm afraid when I hear stories about a husband and wife
                                                                That flock together
There's no happy endings no Henry Lee but you are the greatest
thing about me
                                                                Got to have something to keep us together
                                                                Love, love

And we decide that it's forever
                                                                       Am

No one else could do it better

If it's love

                                                                When we're older
Then the rest is just whatever
                                                                We'll do it all over again
And if I'm addicted to loving you
And you're addicted to my love too
                                                                 When everybody else is getting out of bed I'm usually
We can be them two birds of a feather
                                                                getting in it
That flock together
                                                                I'm not in it to win it
                                                                I'm in it for you
Love, love
Got to have something to keep us together

Love, love
That's enough for me
                                                                If it's love

 We can travel to Spain where the rain falls mainly on the

'cause it is we can laugh we can sing
Have ten kids and give them everything
                                                                And if I'm addicted to loving you
Hold our cell phones up in the air
                                                                And you're addicted to my love too
And just be glad we made it here alive
                                                                We can be them two birds of a feather
On a spinning ball in the middle of space
                                                                Love, love
I love you from your toes to your face
                                                                Got to have something to keep us together
