[Primeira Parte]

    C
I need this to hold me up
   Em
On Sundays I can't get enough
   G
But I love all this structure and
  D
Grooves we have worn
    C
Honest liking my cups
   Em
Survival's my only love
    G                          D
And I won't have no world that could end when I'm gone
    C
What keeps us out of sin
    Em
When there's no fear of falling in
   G
All these kids think they know
         D
How the Earth came around
     C
The lies I'd be confessing
    Em
Like a mind lost but a blessing

Everything we believed to this point
Has been wrong

[Refrão]

[Segunda Parte]
```

```
Oh, now
C
School geeks
This party's started
Em
Clues keep on marching on
G
But I go where the wind blows
D
And question no one
C
Who told you Gods were watching?
G
Truth over shocking talk
Em
All along on this trudge
D
You've been walking alone
C
When light leaks through the trees
G
You'll hear the wise whisperings
Em
Telling you throw away what you own
D
And forget what you know
C
But far gone in reflection
G
You'll be hard up for the lesson
Em
We celebrate what we fear
D
There's been science enough

[Ponte]

       Em
And I know where to find what can save me

But in my living my vision goes hazy
                       Am
Give it time, give me life

Is it worth trading?
                                  Em
Is my mission or is it I'm fading away?
         Am
Fading away

[Refrão]

C          G          D
Life is running on low

But I know that I can make it
         C      G        D
If I climb up out of this hole

Cause no one's gonna save me this time
C          G          D
No God to strengthen my hold
Em        D      C
This is my way to find
   C  G        D
I'm fine on my own

C      Em    G  D
  Yeah, yeah
C      Em    G  D
  Yeah, yeah
C      Em    G  D
  Yeah, yeah
C      Em    G  D
