

# Travis - Coming Around

Tom: **D**

**D** **G D Em**  
Never see you coming around

**A**  
They know they got their heads

screwed on I'm

**D** **G D Em**  
standing in the middle of town

**A**  
I know I might never come home

**Em** **A**  
Just standing where I am with all the people passing by me

**D** **G**  
The sound of all these passers-by mixed in with the bus and motor-car

**Em**  
I must be sure these are the signs

**A**  
Cos I've been here a million times before

**D G D A Em**  
Just tell me when it's coming around, coming around

**D G D**  
I think I see you coming to town,

**A Em G Em G**  
hunting you down Bringing you round

**D G D**  
Tell me if I'm bringing you down

**A**

Cos I was fine till you came along

**D G D**  
You tell me that the tears of a clown

**D**  
That I'm confusing while abusing my mind

**Em**  
So far away I wanna be

**A**  
That's not as close to you and me

**D**  
The things they call our destiny

**G Em**  
Now why do you have to pick on me at all?

**A**  
My walls are coming down

**D G D A Em**  
Just tell me when it's coming around, coming around

**D G D A Em G Em**  
**G (D G D G A ) 2X (Em A D G Em A )**

I think I see you coming to town, hunting you down Coming around

**D G D A Em**  
Just tell me when it's coming around, coming around

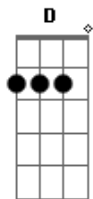

**D G D A Em G**  
I think I see you coming to town, dragging you down

**D G D A Em**  
Just tell me when it's coming around, coming around

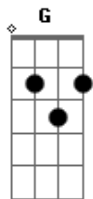

**D G D A Em G**  
**Em G**

I think I see you coming to town, just dragging you down It's coming around
