(intro)

(verso)

Stuck in the storm but there's no need to mourn
You're my roof, you're my shelter your love keeps me warm
We sail a-way
You and I

Oh thunder all around waves up and down
But I hold to this song I hold to the sound
So come what may
You and I

(refrão)

We put the stars to shame
What can I say
The earth it turns but we never fade away
Forever hold on
Forever stay close
All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know

You'll be All I, All I ever know

(intro)

(verso)

Ah yeah wake from my slumber
Swallow above us
Time falls away and the spell that we're under
I don't fear
You and I

As we let go of all this
Nothing we don't miss
Pleasure explode and the second we kiss
Baby I don't fear
You and I

(refrão)

We put the stars to shame
What can I say
The earth it turns but we never fade away
Forever hold on
Forever stay close
All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know

(refrão 3)

We put the stars to shame
What can I say
The earth it turns but we never fade away
Forever hold on
Forever stay close
All I ever need you'll be all I ever know

You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know

You'll be All I, All I, All I ever know
You'll be All I, All I, All I ever know
