

Tristania - Deadlands

tom:

Em

Intro: Em C Am D
Em C Am D

I failed to impress you, and you

Feel free to abuse me

All has been in vain
We're through

So please stop pretending

Years I spent were wasted on you

Words have been spoken

My chains have been broken

This street has an end, I have failed

Never will again

(Em C Am D)

My life was invaded by you

This image of straws that break against the wind

We're through

But the world keeps spinning

Endlessly (I have no answers for you)

Weight off my shoulders

Un - lea - shed

No more hi - ding

Leaving deadlands

Release me

Words have been spoken

My chains have been broken

This street has an end, I have failed

Never will again
