Intro: Am G F E

Bleed into me
An ounce of your empathy
Eyes lock, you can see
A ghost town, invisible city
Bleed

[Primeira Parte]

Bleed?into?me
Those feelings you're?harboring
The silence says it all
Tragedy, the?look before the fall

[Pre Refrão]

Struggles and dreams mix into one
The grim ?rituals?have?only begun
No use?in leaving
Now drift?off before you are gone
Before you are gone

[Refrão]

As it bleeds into me
Let it sink in for you
Tell them the story
Tell them the truth
As it bleeds into me
Let it sink in for you
Tell them the story
Tell them the truth
Let it bleed into you
Bleed into you

[Segunda Parte]

Bleed into me
A bit of your apathy
Cast aside, forget me
Another disappears in the city

[Pre-Chorus]

Struggles and dreams mix into one
The grim rituals have only begun
No use in leaving
Now drift off before you are gone
Before you are gone

[Refrão]

As it bleeds into me
Let it sink in for you
Tell them the story
Tell them the truth
As it bleeds into me
Let it sink in for you
Tell them the story
Tell them the truth
Let it bleed into you
