Tom: C

apotraste na 3ª casa G  
When the dark sky, doesn't feel right  
I get close to you

Bm When it's hard times, I can't get by A  
If I'm not close to you G

Well I can't help but see that Em

There's a tension building  
(I can't stand it, I can't stand it)

Bm The fire will rise, if we all unite A  
So help me make the sun shine

G Oh I feel like there's no one together

Em Now it's real, that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all

G Oh I feel like there's no one together

Em Now it's real that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all

G There's a new light Em

In the dark sky  
But no one sees the truth Bm

Yeah  
Now we've waited A

Times are changing  
So I get close to you G

Oh I can't help but see that  
There's a tension building Bm

Em (I can't stand it, I can't stand it) A

The fire will rise, if we all unite

So help me make the sun shine

Em G Oh I feel like there's no one together Em

Now it's real, that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all G

Oh I feel like there's no one together Em

Now it's real that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all

G We're done with all of the pain Em

Now it's out time to change it Bm

Where's the kindness we shared? A

Where did this all get jaded? G

Hoping just ain't enough Em

We need to make it back soon Bm

Before we lose it all A

We need to make it back through

G Oh I feel like there's no one together Em

Now it's real, that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all G

Oh I feel like there's no one together Em

Now it's real that we're miles from home Bm

Oh I feel like there's no one together A

At all, at all
