You-ooh-ooh
Can have all I've made and all I've ever known
You-ooh-ooh
Can have both my lungs if you ask me so
'Cause I-I-I
                   Db
Want to be the one after your own heart
And I-I-I
Might doubt the process like I doubted the start
So I'm begging: Oh, oh-oh, oh-oh, mercy
I'm begging: Oh, oh-oh, oh-oh, mercy
Downstairs
I feel better in the cellar down there
It's some shelter from the weather
I wear all of my heart on my sleeve
I'll take what I believe, and I'm hiding it
Downstairs
I feel better in the cellar down there
It's some shelter from the weather
I wear all of my heart on my sleeve
I'll take what I believe, and I'm hiding it-
Feeling like I'm nothing
Feeling like I'm run-down
Was afraid of nothing
Now I'm just ashamed how
I hide my face from you
                Gb
                                  Dh
So I'm begging: Oh, oh-oh, oh-oh, mercy
I'm begging: Oh, oh-oh, oh-oh, mercy
Downstairs
I feel better in the cellar down there
It's some shelter from the weather
I wear all of my heart on my sleeve

Downstairs
I feel better in the cellar down there
It's some shelter from the weather
I wear all of my heart on my sleeve
I'll take what I believe, and I'm hiding it-
Oh, what have I become?
Bhm
Dirty and wretched one

       Db
Am I unholy land?
Bbm
Have I forced your hand?
Oh, woah-oh, woah-oh, mercy, yeah
                      Dh
Oh, woah-oh, woah-oh, mercy, yeah
Down there
It's some shelter from the weather
I wear all of my heart on my sleeve
I'll take what I believe, and I'm hiding it
Downstairs
I feel better in the cellar down there
It's some shelter from the weather
I wear all of my heart on my sleeve
I'll take what I believe, and I'm hiding it
Downstairs (you can have)
I feel better in the cellar (all I've made) down there
It's some shelter from the weather (all I've ever known)
I wear (you can have) all of my
Heart on my sleeve (both my lungs)
I'll take what I believe, and I'm
Hiding it, yeah (if you ask me so, oh)
And I'm hiding it, yeah ('cause I want to be the one)
                   Cm
And I'm hiding it, yeah (after your own heart)
And I'm hiding it, yeah, oh (and I might
Doubt the process like I doubted the start)
You can have all I've made and all I've ever known
                     Bb
You can have both my lungs if you ask me so
'Cause I want to be the one after your own heart

And I might doubt the process like I doubted the start
