

Twenty One Pilots - Implicit Demand For Proof

```
( Am F Am E Am ) 5x
Intro: calma: C Am F G Am (4x)
Intro: mais alta: Am F Am E Am (3x)
                                                                     ( Am C Dm E (pausa) )
I know you're not a liar and Dm E
                                                                     I mean no disrespect
                                                                          Dm E
I know you could set fire this day
C F E
                                                                     I am simply very perplexed by your ways C F E
Go ahead and make me look away
                                                                     Why won't you let us use your name?
                                                                                      \mathsf{Am}
                                                                                           G (to end)
Strike me down, I am calling your light/
                                                                     Rain down and destroy me
                                                                     Rain down and destroy me
/ning down from your dark hiding place {\mathsf C} {\mathsf F} {\mathsf E}
                                                                     Rain down and destroy me
                                                                     Rain down and destroy me
Go ahead and show me your face
                                                                     (Rain) down
                  Am G
                                                                     (Rain) down
Rain down and destroy me
                                                                     Down
   F Am G
                                                                     (Down // rain)
Rain down and destroy me
                                                                     Final: Am
     F Fm
Rain down
