

Twenty One Pilots - March To The Sea

Tom: G

There's miles of land in front of us C
And we're dying with every step we take Em
We're dying with every breath we make D
And I'll fall in line G
The stranger's back is all I see C
He's only a few feet in front of me Em
And I'll look left and right sometimes D
But I'll fall in line G
No one looks up anymore C
Cause you might get a rain drop in your eye Em
And heaven forbid they see you cry D
As we fall in line G
And about this time of every year C
The line will go to the ocean pier Em
And walk right off into the sea D
And then we fall asleep. G

(G C Em D)

G C
And as we near the end of land, Em
And our ocean graves are just beyond the sand. G
I ask myself the question, "Why... I fall in line?" C
Then out of the corner of my eye Em
I see a spaceship in the sky D
and hear a voice inside my head C G D
"Follow me instead"

"Follow me instead" C G D
"Follow me" C G D
(G C Em D)
G C
Then the wages of war will start Em
Inside my head with my counterparts D
And the emotionless marchers will chant the phrase D
"This line's the only way" G
And then I start down the sand C
My eyes are focused on the end of land Em
But again the voice inside my head says D
"Follow me instead" C G D
"Follow me instead" C G D
"Follow me" C G D
"Follow me instead" C G D
"Follow me instead" C G D
"Follow me instead" C G D
"Follow me instead" C G D
"Follow me instead" C G D
"Follow me instead" C G D

G C
Take me up, Seal the door Em
I don't wanna march here anymore D
I realize that this line is dead G
So I'll follow you instead C
So then you put me back in my place Em
So I might start another day D
And once again I will be
In a march to the sea
