 I just wanna stay in the sun where I find
 I know it's hard sometimes

 Pieces of peace in the sun's peace of mind

 Yeah I think about the end just way too much
 But it's fun to fantasize

All my enemies who wouldn't wish who I was

 Taking my time on my ride
                                                                Oh whoa, oh whoa
 I'd die for you, that's easy to say
                                                                I'm falling so I'm taking my time on my ride
 We have a list of people that we would take
                                                                Oh whoa

A bullet for them, a bullet for you
                                                                I'm falling so I'm taking my time
A bullet for everybody in this room
                                                                I'm taking my time on my ride

 But I don't seem to see many bullets coming through
                                                                Whoa, oh, yeah
                                                                Abm
 See many bullets coming through
                                                                0h whoa
 Metaphorically I'm the man
                                                                I'm falling so I'm taking my time on my ride
 But literally I don't know what I'd do
                                                                0h whoa
                                                                                   В
 I'd live for you, and that's hard to do
                                                                I'm falling so I'm taking my time on my
 Even harder to say when you know it's not true
                                                               Dh
                                                                I've been thinking too much (help me)
 Even harder to write when you know that tonight
                                                                I've been thinking too much (help me)
 There are people back home who tried talking to you
                                                                                                        Fbm

 But then you ignore them still

                                                                I've been thinking too much (help me)
 All these questions they're for real
                                                                                                        Fbm
                                                                I've been thinking too much (I've been thinking too much)
                   Fbm
 Like who would you live for? Who would you die for?
                                                               Dh

                                                                I've been thinking too much (I've been thinking too much)
 And would you ever kill?
                                                                Help me
