

# Twenty One Pilots - The Line

tom:  
Intro: Am F G D

My body is on the line now  
I can't fight this time now  
I can feel the light shine on my face  
Did I disappoint you?  
Will they still let me over if I cross the line?  
Take a sit but I'd rather you not be here for  
What could be my final form  
Stay your pretty eyes on course  
Keep the memories of who I was before  
So stay with me because

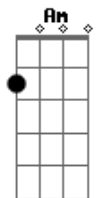

My body is on the line now  
I can't fight this time now  
I can feel the light shine on my face  
Did I disappoint you?  
Will they still let me over if I cross the line?

Honestly, I thought I was fully prepared for  
The threshold in store  
Stay your pretty eyes on course  
I guess I never really faced my fears before  
So stay with me because

My body is on the line now  
Pull the blanket tight now  
I can feel the light shine on my face  
Did I disappoint you?  
Will they still let me over if I cross the line?  
( F G D Am )

Please don't let them see me  
Sure there's nothing left to try  
I can feel the light shine on my face  
Did I disappoint you?  
Will they still let me over if I cross the line?  
If I cross the line  
If I cross the line
