

# Twin Forks - Something We Just Know

Tom: C  
Intro: C

C  
We were thrown together, like some backyard party  
Who'd a known forever, could'a come from harley, no  
And what looks like love, and what feels like summer to me  
Hey  
C  
And we made new discoveries in the crowed backseat  
Of a two door camry, and we left with barely a heart, a piece  
Just one heart a beating between us

We were looking out from someone's bedroom window  
When i knew i loved you, and i can't remember a damn thing  
But that love, and that loves outlasting forever

C

So may we never wonder, may we never wonder, may we  
Take each other, to have and hold on to  
And may i always have you
