### Post-Chorus Pattern-- Last Time Through

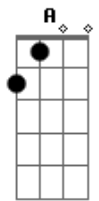

E D E D

Here it comes, you're never gonna top it  
On the run, you're never gonna stop it  
Total style, perfection and decay  
Running wild, flat out all the way  
And you can ride it high  
And you can light the way  
Lift up your hands and pray  
You can't stop rock and roll

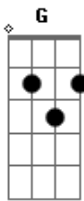

Like a charging bull, it's a juggernaut  
With steam on full, never to be caught  
Incoming power, roaring from the sky  
While others talk, rock will never die

It's an angry steed on a neverending course  
With grace and speed, it's a neverending force  
It's head blown back, defiantly proud  
On the constant attack, blasting fast and loud
