                                                               It's what you get when you try to educate a black sheep
                                                                                       В
                                                              You can't, you won't, you never will
You're too young, you're never gonna know
                                                                                        Abm
                                                              I'm gonna show you what it takes to see the future
Why it hit me when I felt on in silence
                                                              It's hard but not impossible
                      Abm
No-one thinks what I'm doing is the right way forward
                                                                           Abm

You'll see it's not just a dream now
