

Tyler, The Creator - See You Again

```
Tom: Gb
                                                               (Uh, switch it up)
  Okay, okay, okay, okay
Okay, okay, oh
You live in my dream state
Relocate my fantasy
                                                               I've been looking, stop the waiting
I stay in reality
You live in my dreamstate
Any time I count sheep
That's the only time we make up
                                                                     Abm
     Ahm
You exist behind my eyelids, my eyelids
I don't wanna wake up
                                                               Yugh!
20/20, 20/20 vision
                                                               20/20, 20/20 vision
Cupid hit me, cupid hit me with precision, I
Wonder if you look both ways
                                                               Wonder if you look both ways
When you cross my mind, I said, I said
                                                               When you cross my mind, I said, I said
                                                                  Gb
I'm sick of, sick of, sick of chasing
You're the one that's always running through my day dreams, I
I can only see your face when I close my eyes
           Gb
Can I get a kiss?
                                                                           Gh
                                                               Can I get a kiss? (Can I get a kiss?)
And can you make it last forever?
I said I'm 'bout to go to war
                                                                                         Ahm
                                                               I said I'm 'bout to go to war (Go to war)
And I don't know if I'ma see you again
                                                                                    G7
Can I get a kiss? (Can I)
                                                                           Gb
                            Bbm
                                                               Can I get a kiss? (Can I)
And can you make it last forever? (Can you)
                                                                                           Bbm
I said I'm 'bout to go to war ('Bout to)
                    G7
I don't know if I'ma see you again
```

Acordes

```
I said, okay, okay, okie dokie, my infatuation
Is translatin' to another form of what you call it? - Love
Oh yeah, oh yeah, oh yeah, I ain't met you
'fore I stop the chasing, like an alcoholic
You don't understand me, what the fuck do you mean?
It's them rose tinted cheeks, yeah it's them dirt-colored eyes
Sugar honey iced tea, bumblebee on the scene
Yeah I'd give up a bakery to have a piece of your pie
Cupid hit me, cupid hit me with precision, eye
I'm sick of, sick of, sick of chasing
You're the one that's always running through my day dreams, I
I can only see your face when I close my eyes
And can you make it last forever? (Oh, forever)
I don't know if I'ma see you again (See you again)
And can you make it last forever? (Can you)
I said I'm 'bout to go to war ('Bout to)
                    G7
I don't know if I'ma see you again
