

U2 - Always (B-side)

Tom: D

You don't need a capo (yeah!). And use a hard pick!

Here today

And gone tomorrow

Crack the bone, get to the marrow

To be the bee

And the flower

Before the sweetness turns to sour

What we have we're gonna keep... Always

What we've lost we don't need... Always

What is it that won't let you sleep... Always

Be the arrow

And the target

Put your head over the parapet

Be uncool

Yes, be awkward

And don't look in the obvious place

The soul needs beautiful a soul mate

Get down off your holy cloud... Always

God will not deal with the proud... Always
Well if you dream then dream out loud... Always
Eternally yours... Always

I want you

I want you

I want you

Touching the other side

I wanted to be in love

I wanted to come

You say come to know yourself... Always

Don't find yourself in someone else... Always

And always wear a safety belt... Always

Wait for me I'm running late... Always

This is the moment that we share... For always

Turn each song into a prayer... Always

Now and forever

For always

For always

For always

For always...
